a) Operating Budget Update - J. Cole reported that the Council as at about 55 percent of spend for FY24 and on target for the year. Cole further outlined the operating budget and items that are over- and under-budget. For example, the indirect cost allowance is nearly double the budgeted amount. This is the charge for the Council's overhead assessment, which covers amounts for department-wide activities like legal services, financial management services, etc. However, cost-savings through initiatives like the completion of the space consolidation and rent reduction help absorb unanticipated increases in other line items.
