

Judith Parker ♦ Milwaukee Producing Responsible Leaders for Tomorrow

Educators have been the backbone of our society for years, and during Covid, they have proven to be the heroes of the day.

Such a hero is Judith Parker, Principal of Dr. Howard Fuller Collegiate Academy, a public charter High School in the central city of Milwaukee.

As Principal, Judith Parker guides the school's vision to produce responsible leaders through academic mastery, community focused education and the fostering of lifelong learning in any environment. HFCA not only focuses on academic excellence, but invests in the time and programs dedicated to social and emotional intelligence.

The school has a 100% college acceptance rate since 2012 even though many scholars enter the high school with a belief that college is not attainable for them. The school prides itself in changing that paradigm.
